UNESCO: CATALOGUE OF HYDROLOGIC ANALYSIS

- Environmental Research & Public Access Platform

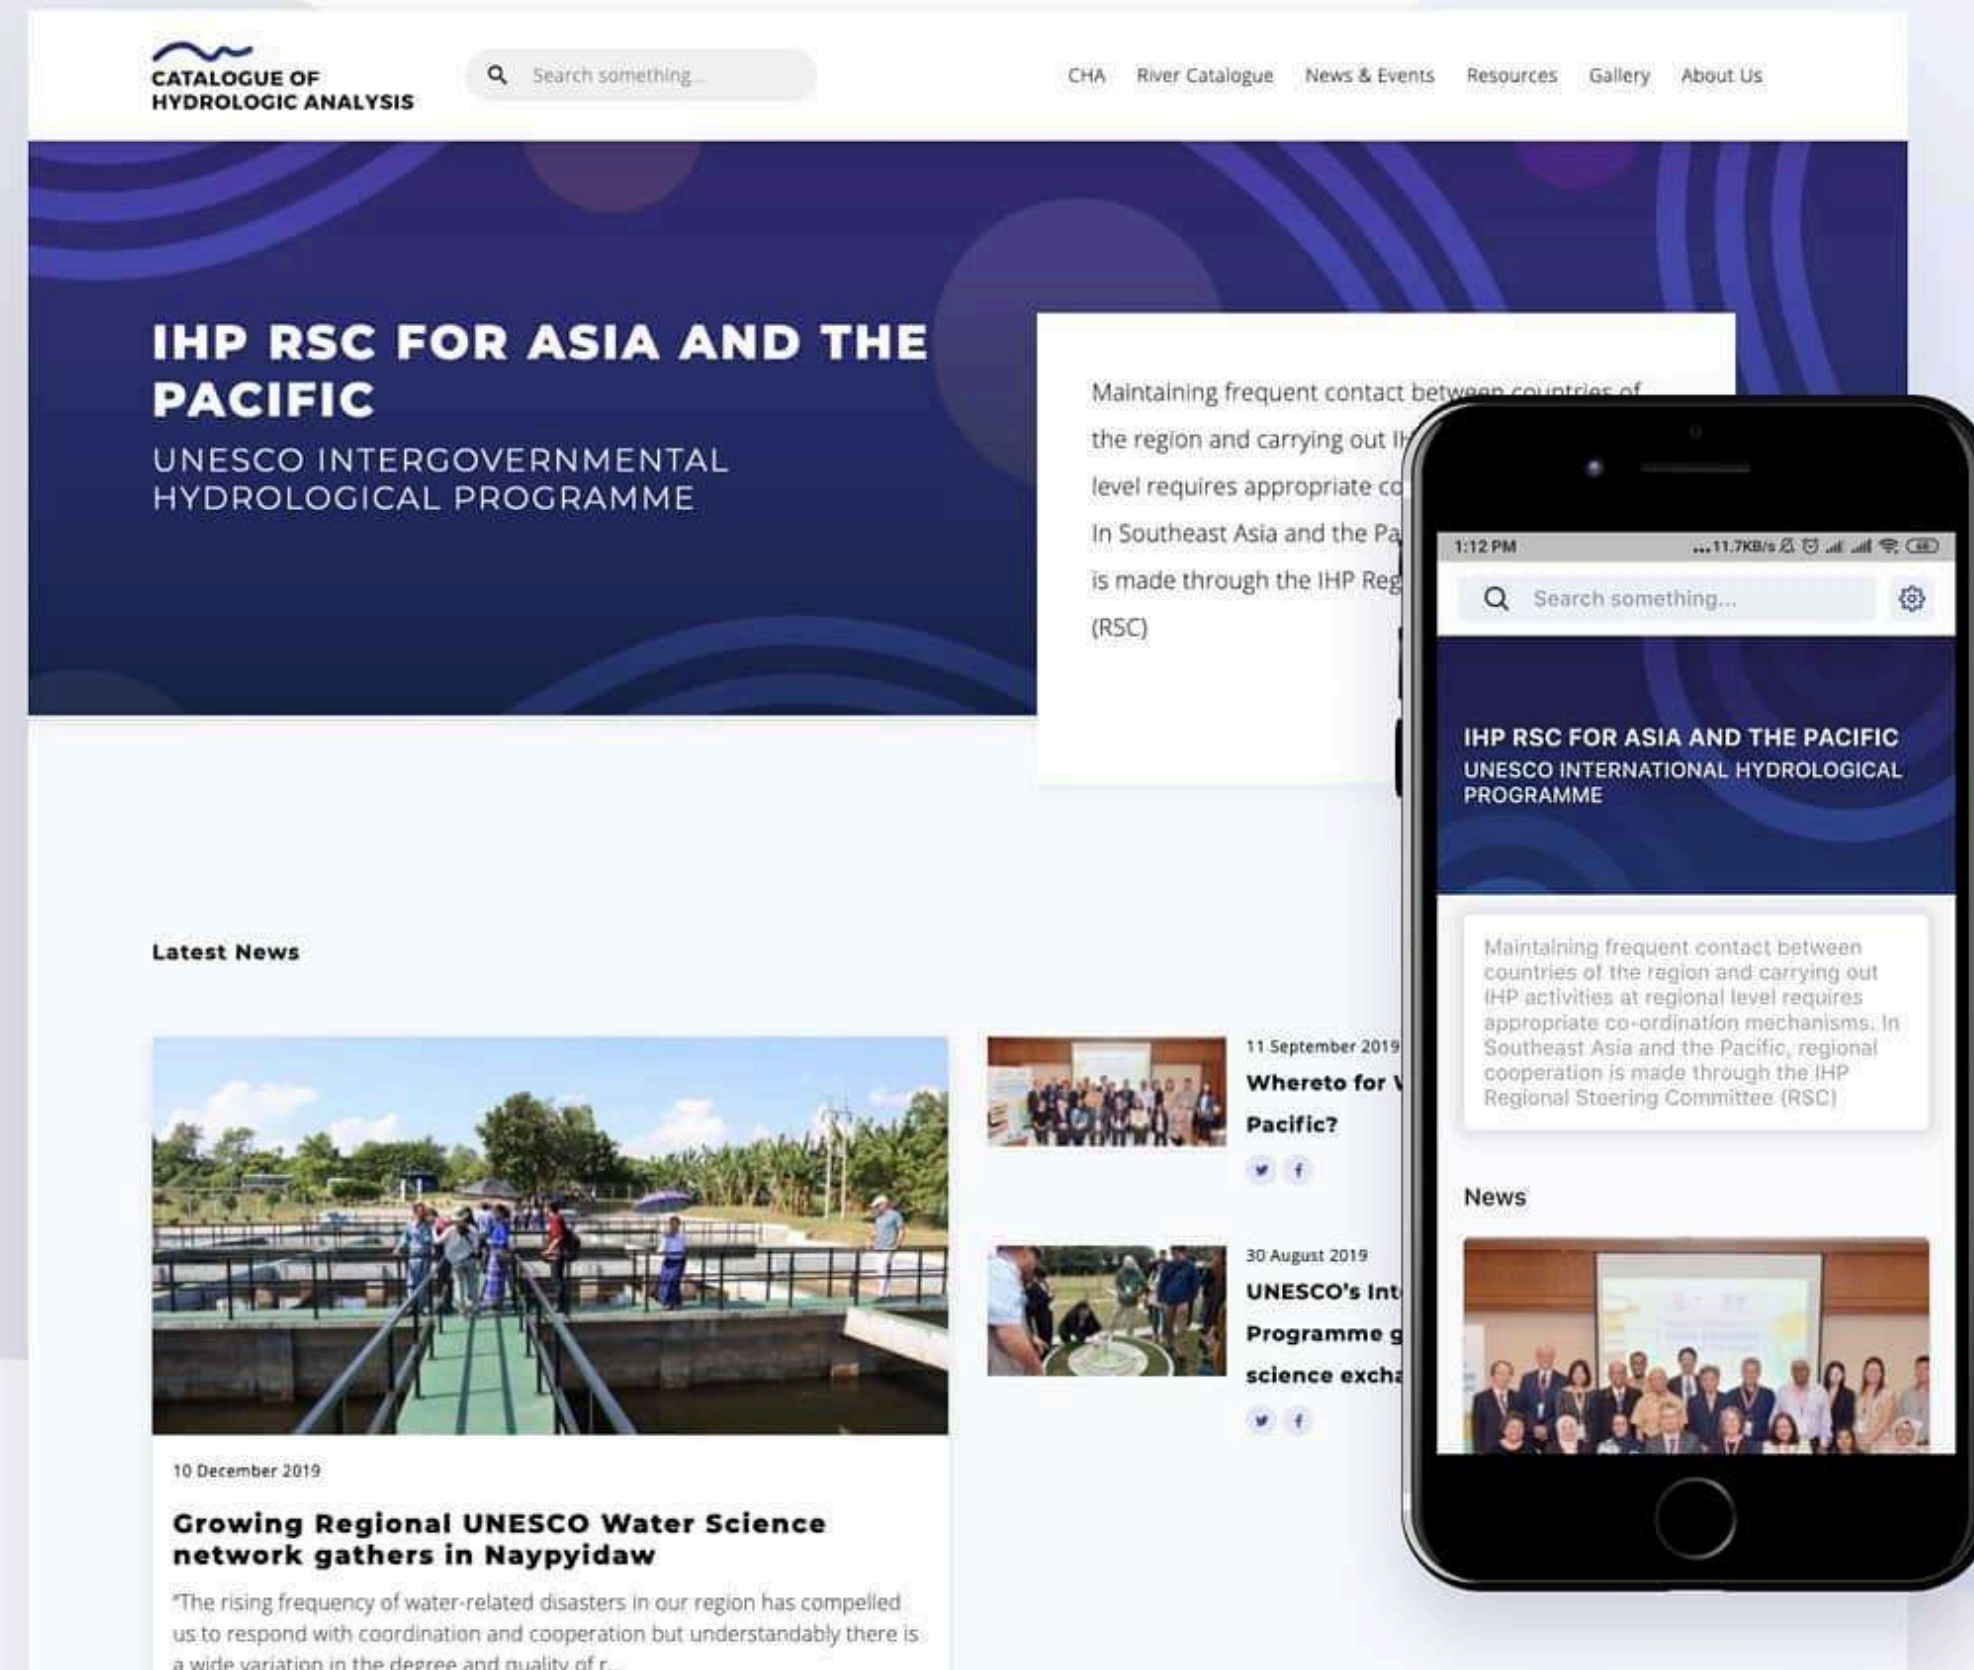

UNESCO IHP RSC: The UNESCO Intergovernmental Hydrological Programme Regional Steering Committee (IHP RSC) oversees water-related research and education activities in the Asia-Pacific region, promoting sustainable water management worldwide.

This project involved a comprehensive redesign of the UNESCO IHP RSC website, focusing on the Catalogue of Hydrologic Analysis and River Catalogue. The new design ensures that this critical data is easily accessible to the public and the UNESCO Water Family, enhancing both visibility and usability.

ATS-CMS KREDITPLUS

- Streamlined Applicant Tracking & Content Management

ATS-CMS is a web-based CMS designed to enhance HR efficiency by integrating an Applicant Tracking System (ATS) with content management tools. It simplifies the recruitment process, enabling HR teams to manage job postings, track applications, schedule interviews, and handle other recruiting tasks with ease, all in one platform.

The screenshot shows the homepage of the KreditPlus website. The header includes the KreditPlus logo, a phone number (1500605), and a 'Karir' link. The main navigation bar contains links for 'Beranda', 'Tentang Kami', 'Karir', 'Profil Saya', and 'ID'. The main content area features two large images: one of a woman presenting to a group and another of a woman in a KreditPlus uniform interacting with a customer. To the right of these images is a large heading 'Bangun karir Anda bersama kami di KreditPlus' followed by a paragraph about career opportunities and a 'Karir >' button. A decorative orange circle graphic is visible on the right side of the page.
